

Equipment List January 2009

Gerber Omega 2.6

Gerber OMEGA design and output software is a complete suite of layout, design, output and conversion tools created specifically for use in the sign industry. OMEGA design and output tools are fine-tuned to accommodate vinyl cutting, printing and routing on sign-industry production devices such as Gerber vinyl cutters, the Gerber EDGE® family of thermal printers, and the Gerber Sabre™ and D-200™ routers.

Adobe® Creative Suite®

This software is the designer's dream toolkit for print, web, and mobile publishing. It combines all-new versions of essential tools for producing everything from professional page layouts to rich interactive experiences in a unified, intuitive environment.

Onyx Postershop 6.5

ONYX® Graphics, Inc. is the leading developer and supplier of commercial printing software and workflow solutions for the large-format printing industry. ONYX provides over 16 years of experience and has over 100,000 installations world-wide, giving ONYX the largest install base in the industry. We provide customers with a complete solutions they can depend on and trust.

Gerber P2C1600 Plotter

Gerber's P2C plotter line features three distinct formats to more readily meet the needs of today's sign professional. Whether you choose the class-leading, ultra wide-format P2C 1600, or any one of the other P2C formats - from the moment you cut your first job, you'll be very glad you did.

Seiko ColorPainter 100S

Introducing the new 104", ColorPainter™ 100S Printer, engineered to offer high-performance features including: high-speed printing (16 sq.mt./hour at 720 dpi with 4 passes), modern industrial piezo inkjet heads, heavy-duty media feed, and advanced six-color solvent ink technology (EG-Outdoor inks). EG-Outdoor inks, (EG stands for expanded gamut), generate amazing color prints that are extremely durable .

HP5500

The HP Designjet 5500 series printers distribute prints at some of the fastest speeds available. Printing solutions, print service providers, GIS professionals, & graphics designers will benefit from a simplified workflow that serve a variety of customers.

Seal Image 62 Plus

Capable of mounting, laminating and encapsulating up to 60" digital prints, the Image 62 Plus can operate with a wide range of materials.
